

## Recycling Meeting Minutes

March 17, 2020

The Recycling Committee was unable to hold a meeting this month at the library due to the corona virus. Deborah Marquis and Kathleen Walker met informally to talk about the uncertainty of the Household Hazardous Waste Day on March 28th. The vouchers that were created for this event can be used for the next date in June if it can be held.

No real progress has been made on the yard waste issue. The Charlton Sustainability Committee has not been active this month due to the virus.

Deb showed Kathleen a Recycling Promotions catalog that she received and hopes to use the funds we have made on sales to buy some new recycling products to sell at a reduced rate to people at the Blueberry Festival and Old Home Day if they can be held.

Deb discussed our 2020 Small Scale Initiative grant and the products we are planning to use the grant money for, if approved. She will meet with Kara at the Selectman's Office to send it to the state by June 10th.
