

Charlton Recycling Committee Minutes

June 4, 2020

The Zoom meeting began at 5:00pm. Present were Kathleen Walker, Roland and Nancy Jackson, Mike Cunningham and Deborah Marquis.

Deb Marquis read the minutes of the May 21st meeting. The group discussed the idea of having an online auction since the corona virus has caused the town to cancel community events where we usually sell and raffle our products. Kathleen suggested we raffle the two rain collecting planters we got with our 2019 grant. Deb mentioned that if we auction both planters, we won't have one for a raffle in early 2021 since our 2020 grant request has other items in it. We asked Mike Cunningham to set up and run the auction. He said he would call Andrew Golas at the Selectman's office to discuss what would be involved if we did it through the town website. We agreed to meet again by Zoom in a week to see if an auction is feasible.

We discussed the order for the 2020 SSI grant and voted that it include:

12 New Age composters from New England Plastics Corp.

and the following from Go Green Solutions:

5 white ceramic kitchen composter buckets

1 stainless steel 1.8 gallon kitchen bucket

10 rolls of degradable liner bags for the buckets.

This order will be given to Kara at the Selectmen's office to send in to the state.

The meeting ended at 5:51pm.
