

Charlton Recycling Committee Minutes

June 11, 2020

The Zoom meeting started at 5:00pm. Present were Kathleen Walker, Roland and Nancy Jackson, Mike Cunningham and Deborah Marquis.

A meeting was called after our last one a week ago because we are hoping to try an online auction to raffle one or two of our products since the town events where we normally would raffle and sell products are cancelled or uncertain. Mike Cunningham said he would look into the Facebook online auction option and report on it. He called Andrew Golas at the Selectmen's office and he thought we might be able to hold a raffle from the town website using a site called Municibid, an online auction service for town governments. They add a percentage and our group thought we may not make enough on the product to make it worth doing. Roland made a motion to postpone the auction idea indefinitely. Vote was unanimous.

Deb Marquis talked about the 2020 grant items and that the list had been given to Kara at the Selectmen's office. Deb mentioned that Go Green Solutions has a snap together composter priced about the same as the New Age ones we are ordering with the grant. Deb called Ann McGovern at the DEP about it and she said that that composter is not on the approved list for the grant.

The next meeting was set for July 9, 2020 at 6:00pm either in person on the Town Common or a Zoom meeting.

The meeting ended at 5:30 pm.
