- Does the sight of plastic beverage containers, empty "nip" bottles, styrofoam cups, cigarette butts, or plastic bags littering your neighborhood impact your sense of community pride?
- Do you wish you could set an example that would encourage others to care about keeping your community clean as much as you do?
- Are you ready to take action to keep your neighborhood and community clean and litter-free?

Due to COVID-19, Charlton's Earth Day Clean-Up was forced to cancel. The Charlton Recycling Committee is inviting citizens to initiate ongoing neighborhood cleanup efforts, either individually or as a group.

To receive a **free** cleanup kit, go to **[keepmassbeautiful.org/LCC](http://keepmassbeautiful.org/LCC)** and pledge to keep your street litter-free.

Your kit includes an EZ-Grabber, reusable trash bag, a pair of high-quality gloves, a car magnet and an official Mass Litter Cleanup Crew tee shirt.

Please email [debam52@gmail.com](mailto:debam52@gmail.com) after you take the pledge. The Charlton Recycling Committee will honor your commitment by making a donation on your behalf to Keep Massachusetts Beautiful.
